

### Social Innovation for All

The Nippon Foundation's logo uses the "share mark" and the Foundation's name in English and Japanese to represent a society that embodies our aim of "a society where all people support one another"

All of this combined into one logo expresses The Nippon Foundation's mission of all people of the world moving forward together. The design of the logo, which opens outward, indicates a future that is open to all people, while the green color expresses affection empathy, aspiration, and peace.
